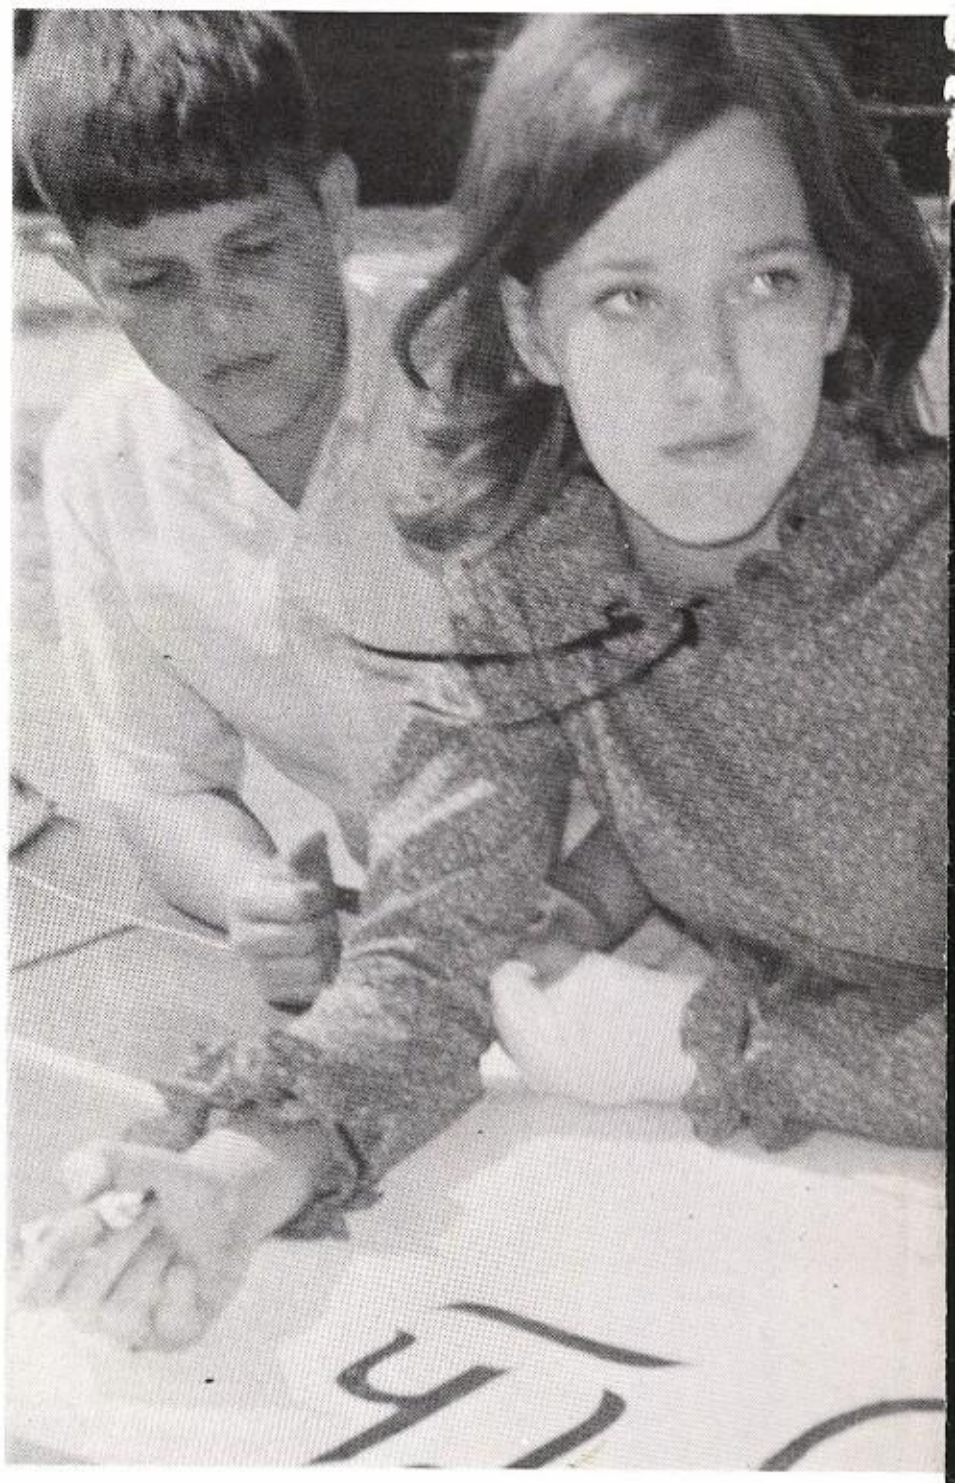
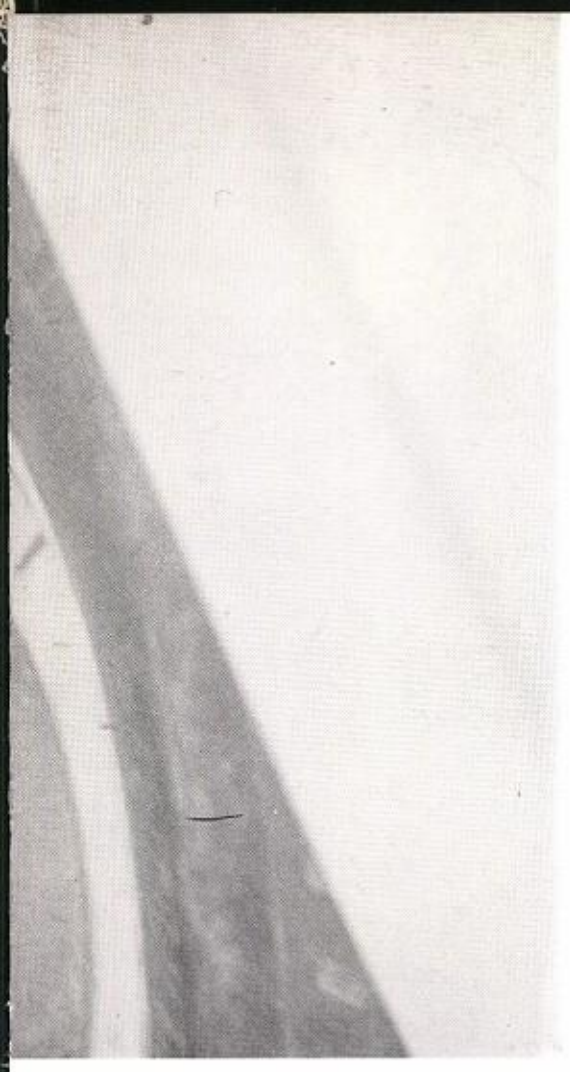
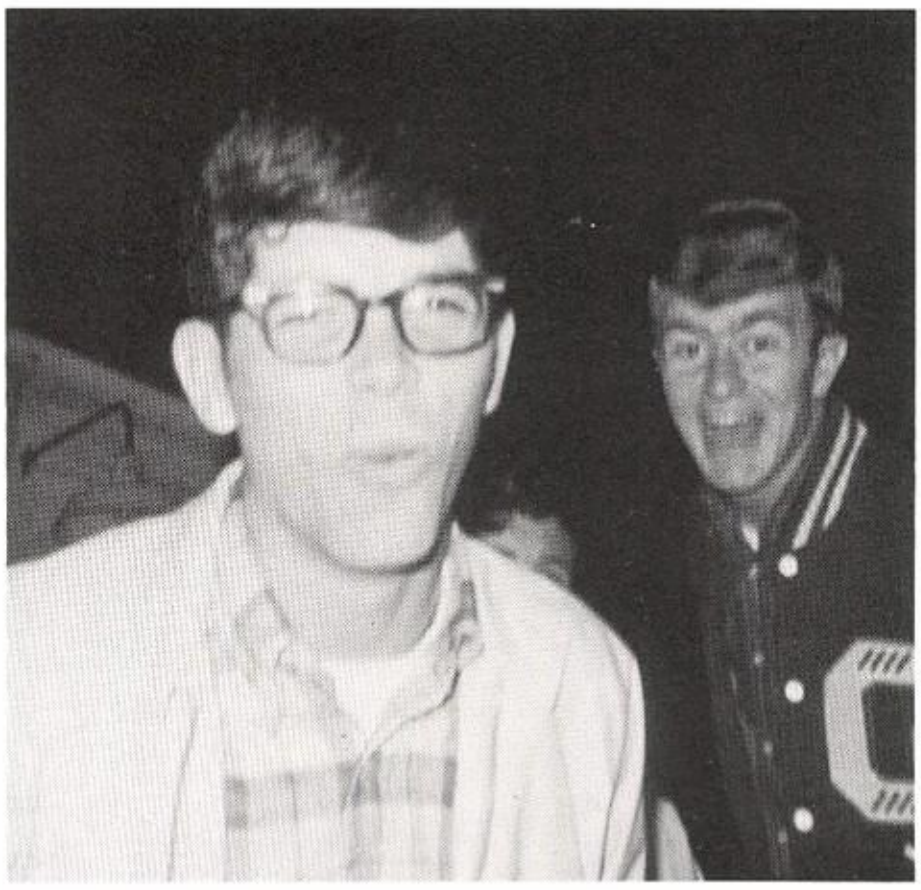
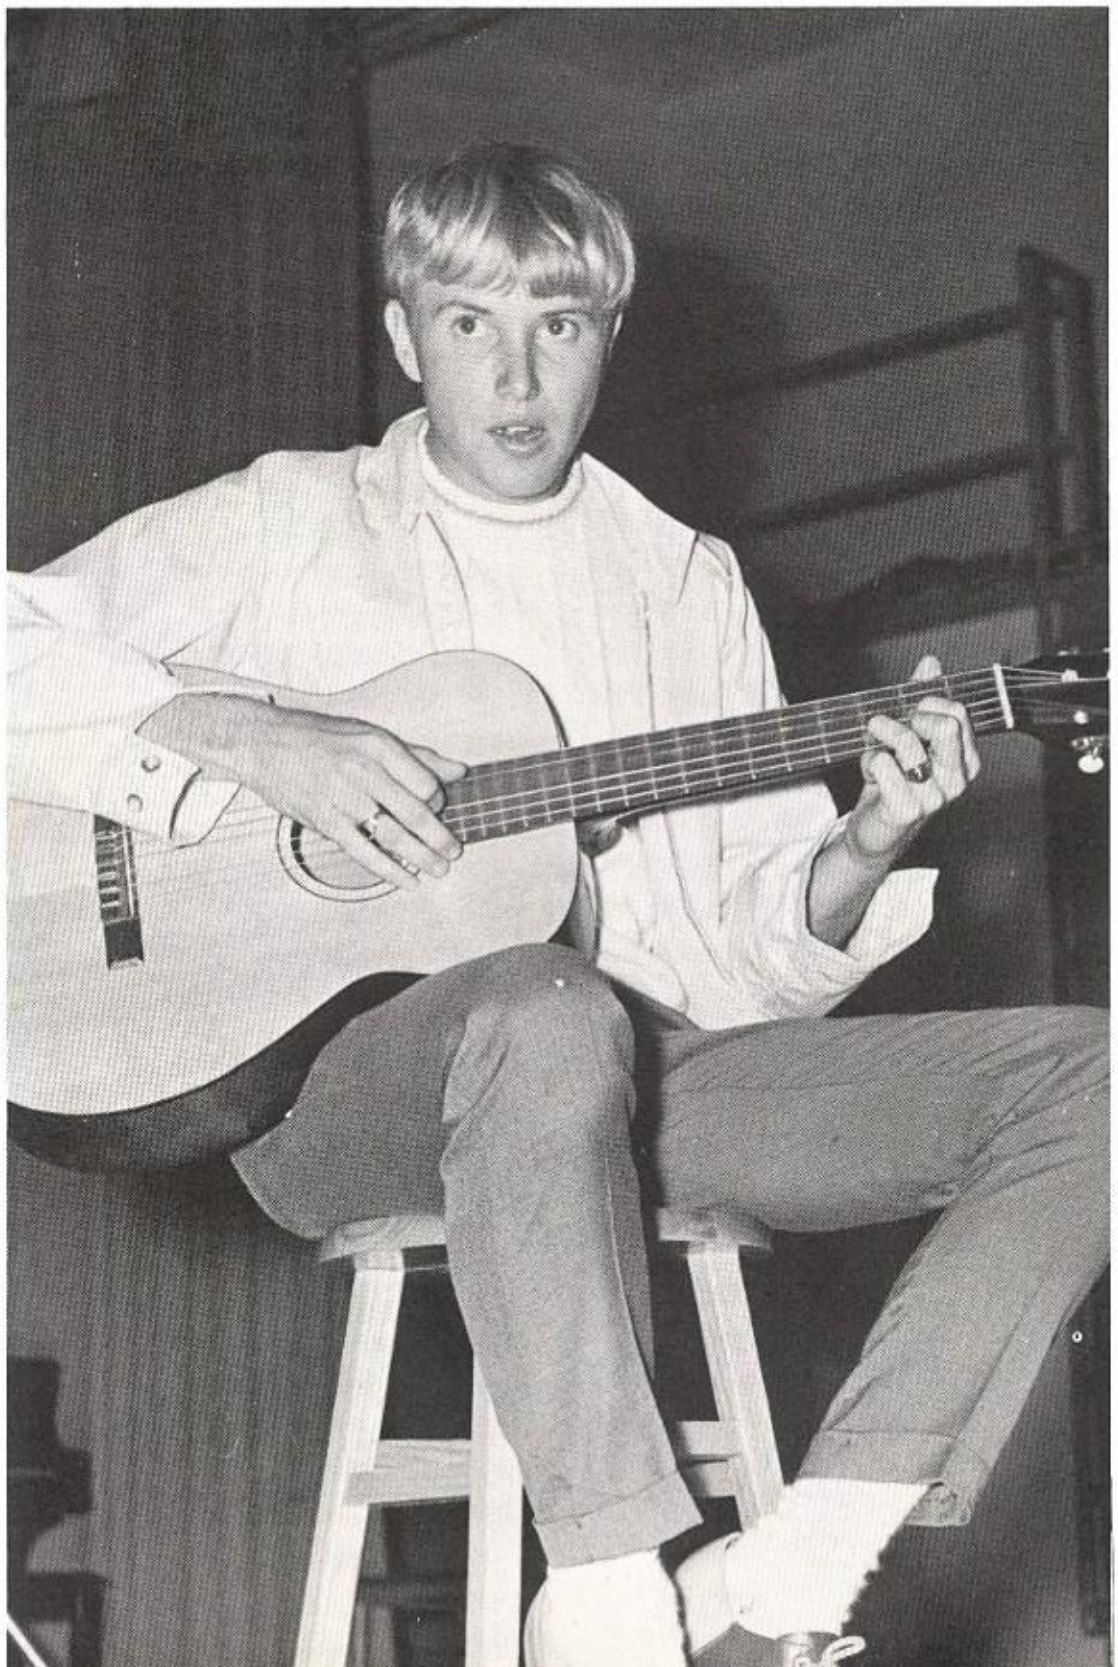
A high school is activity.
It is the joy, the excitement,
the energy of its students.
This, then, is the...

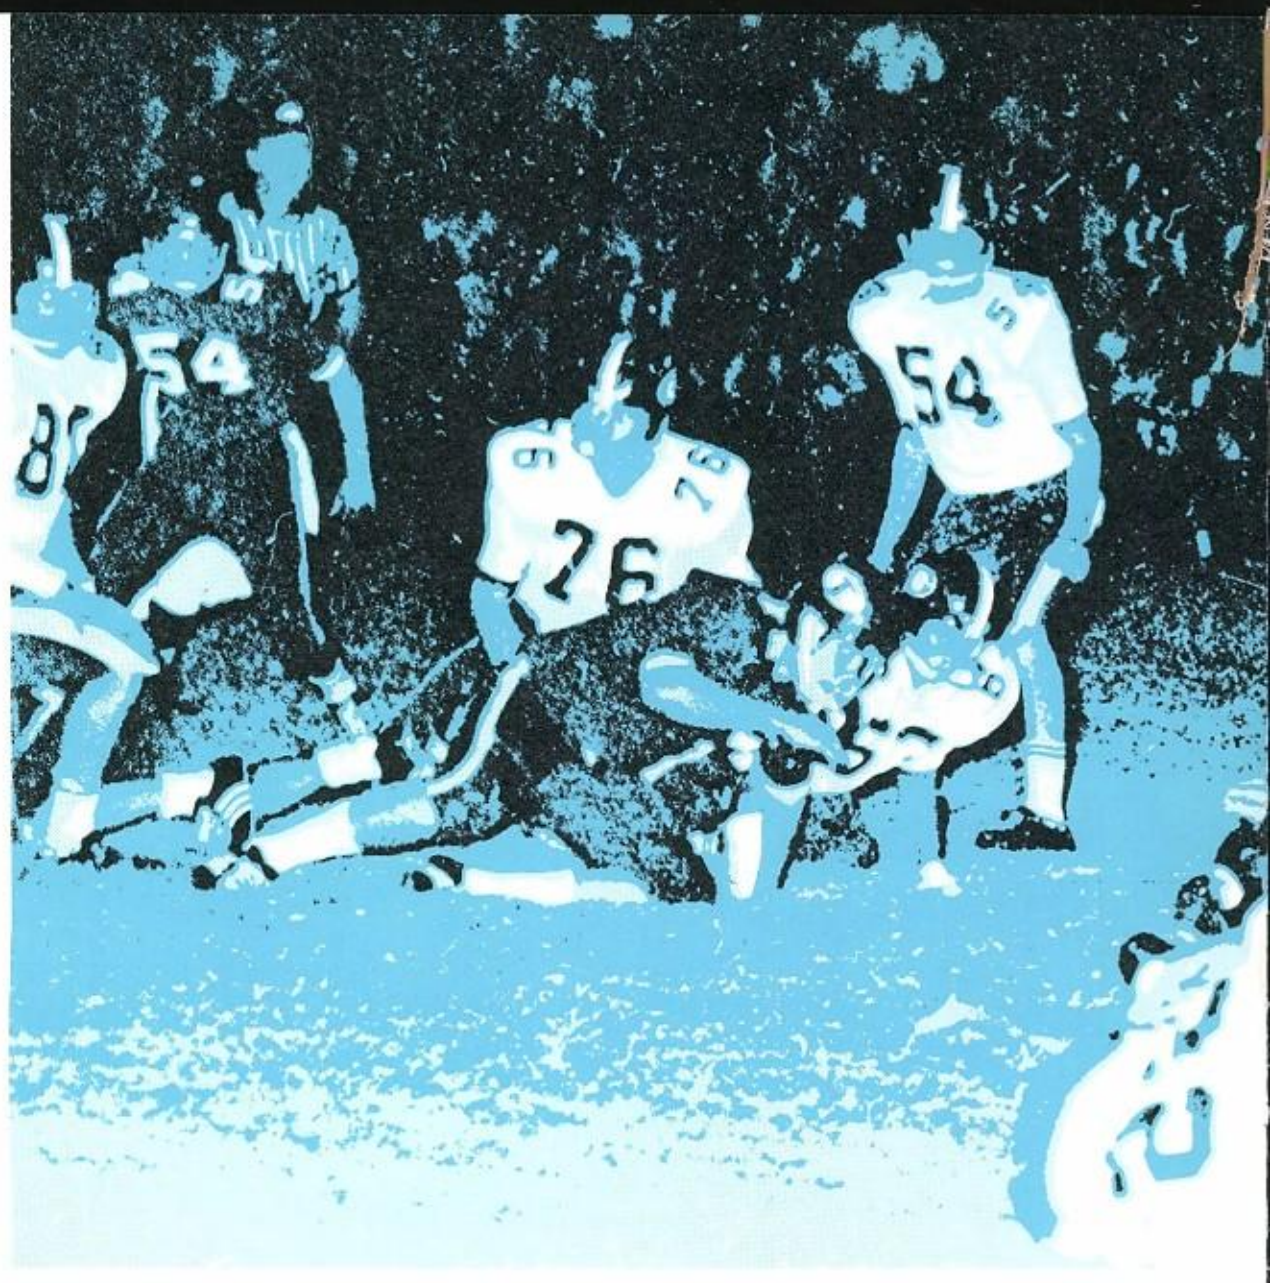




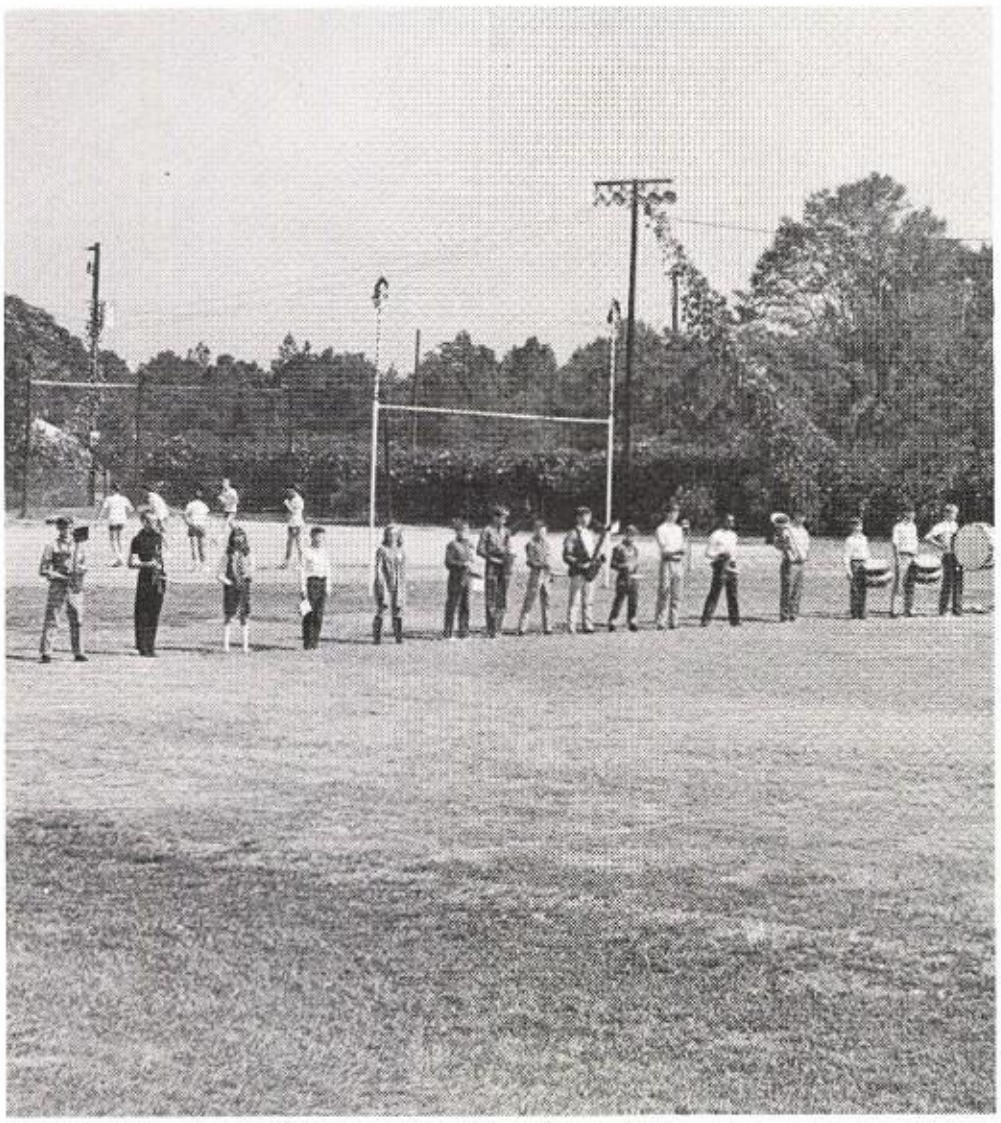




The Action Of C.C.H.S.

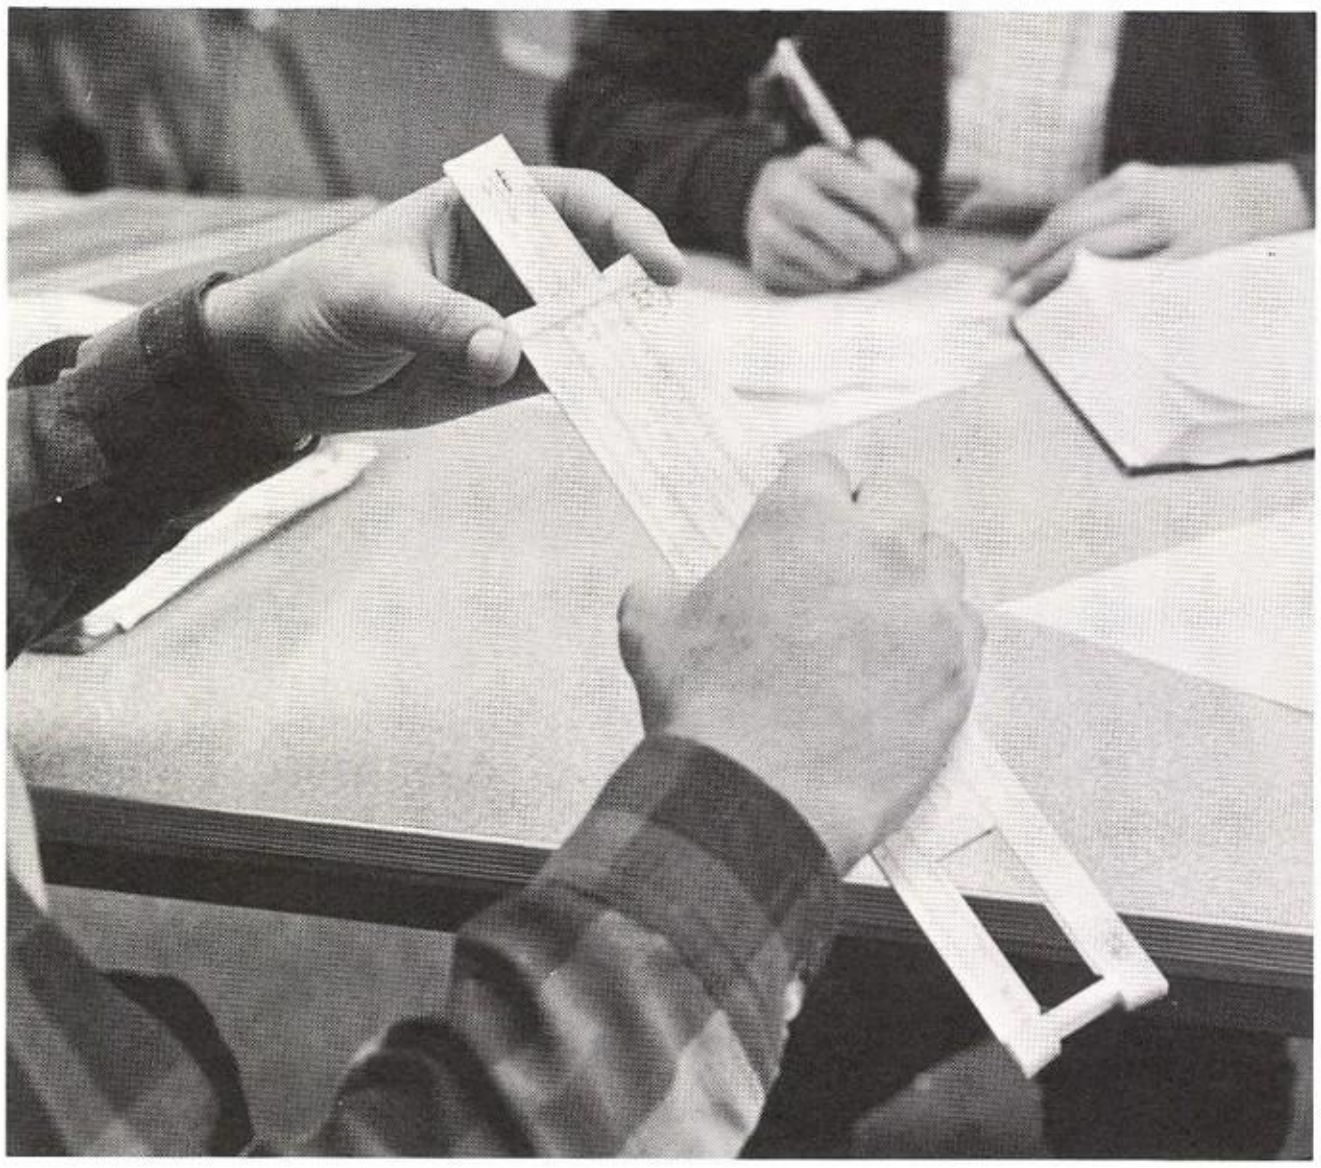


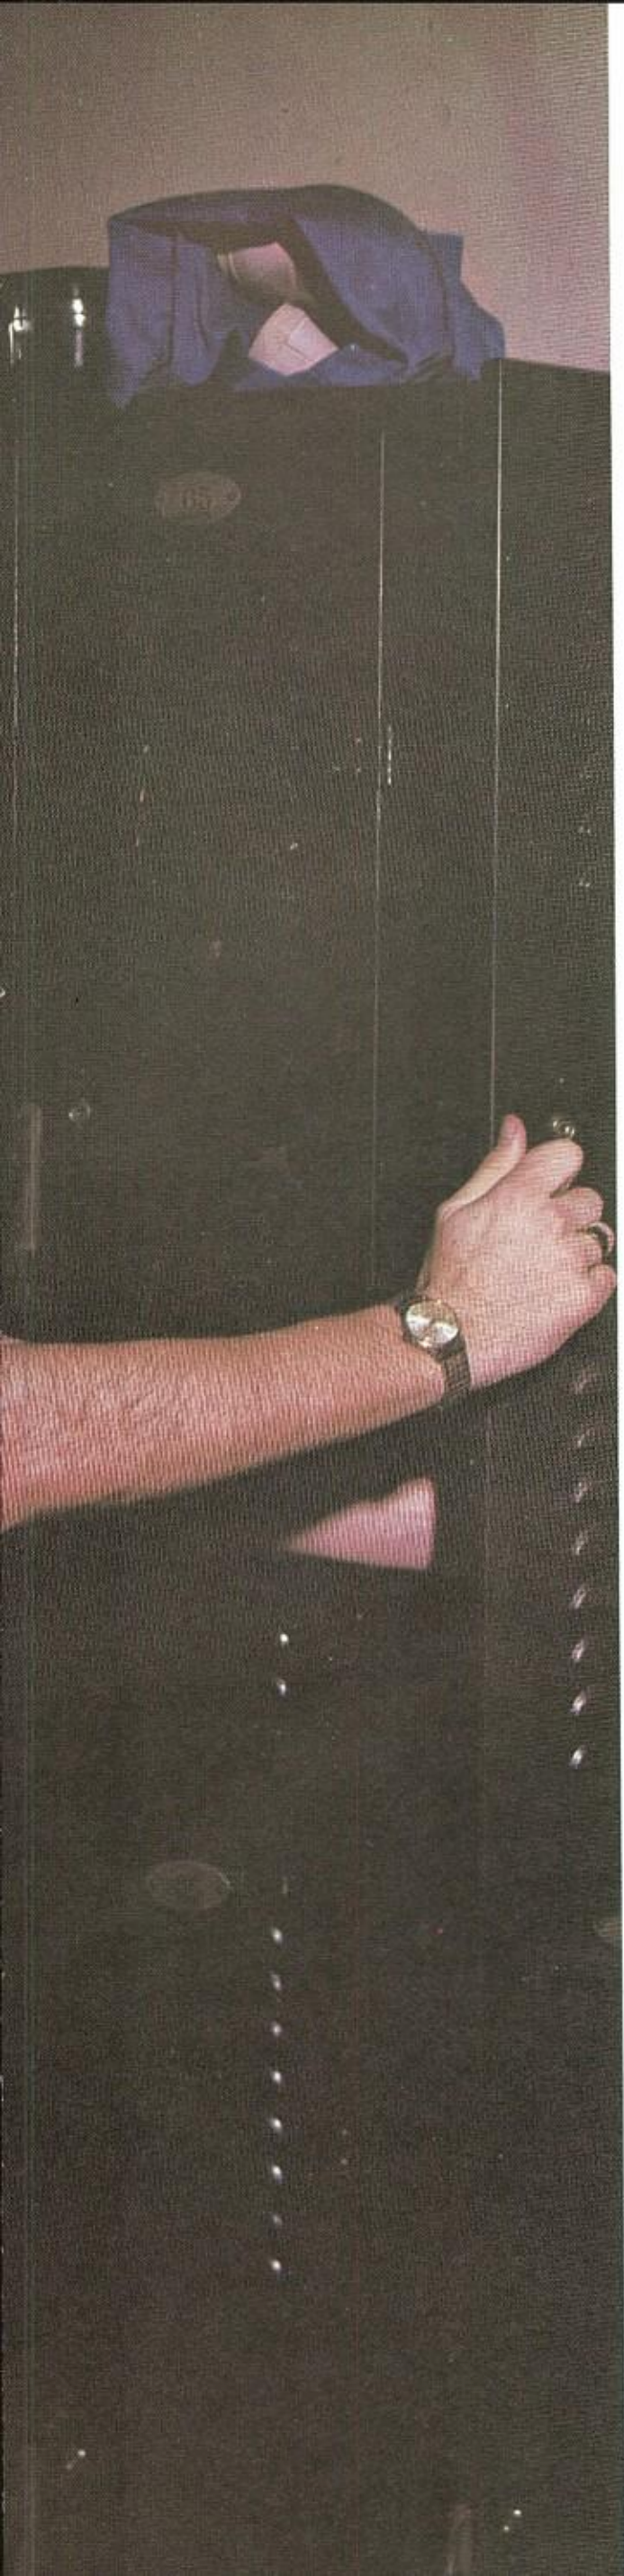
Some students practice
For others it

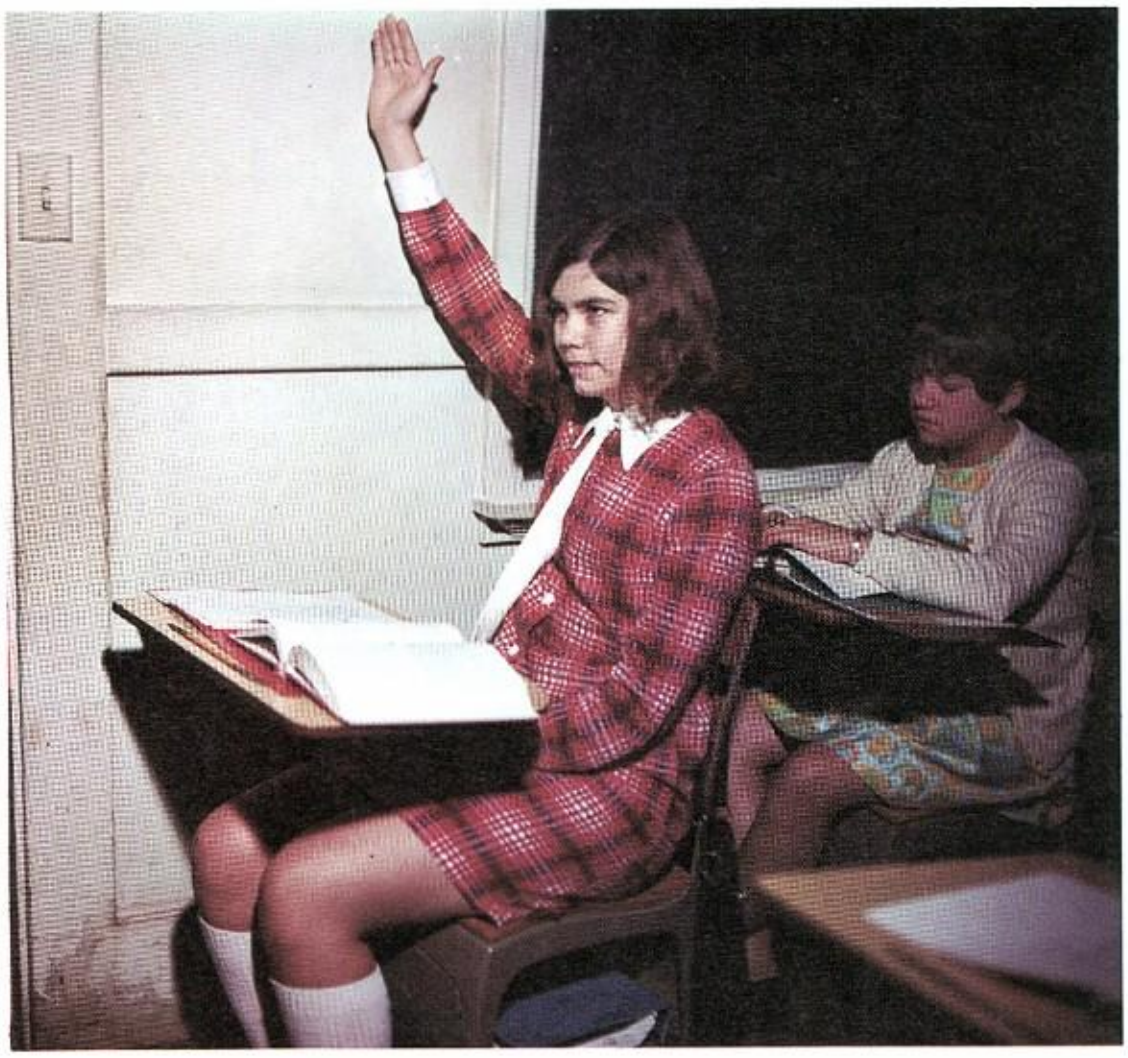


for precisioned action. comes naturally.

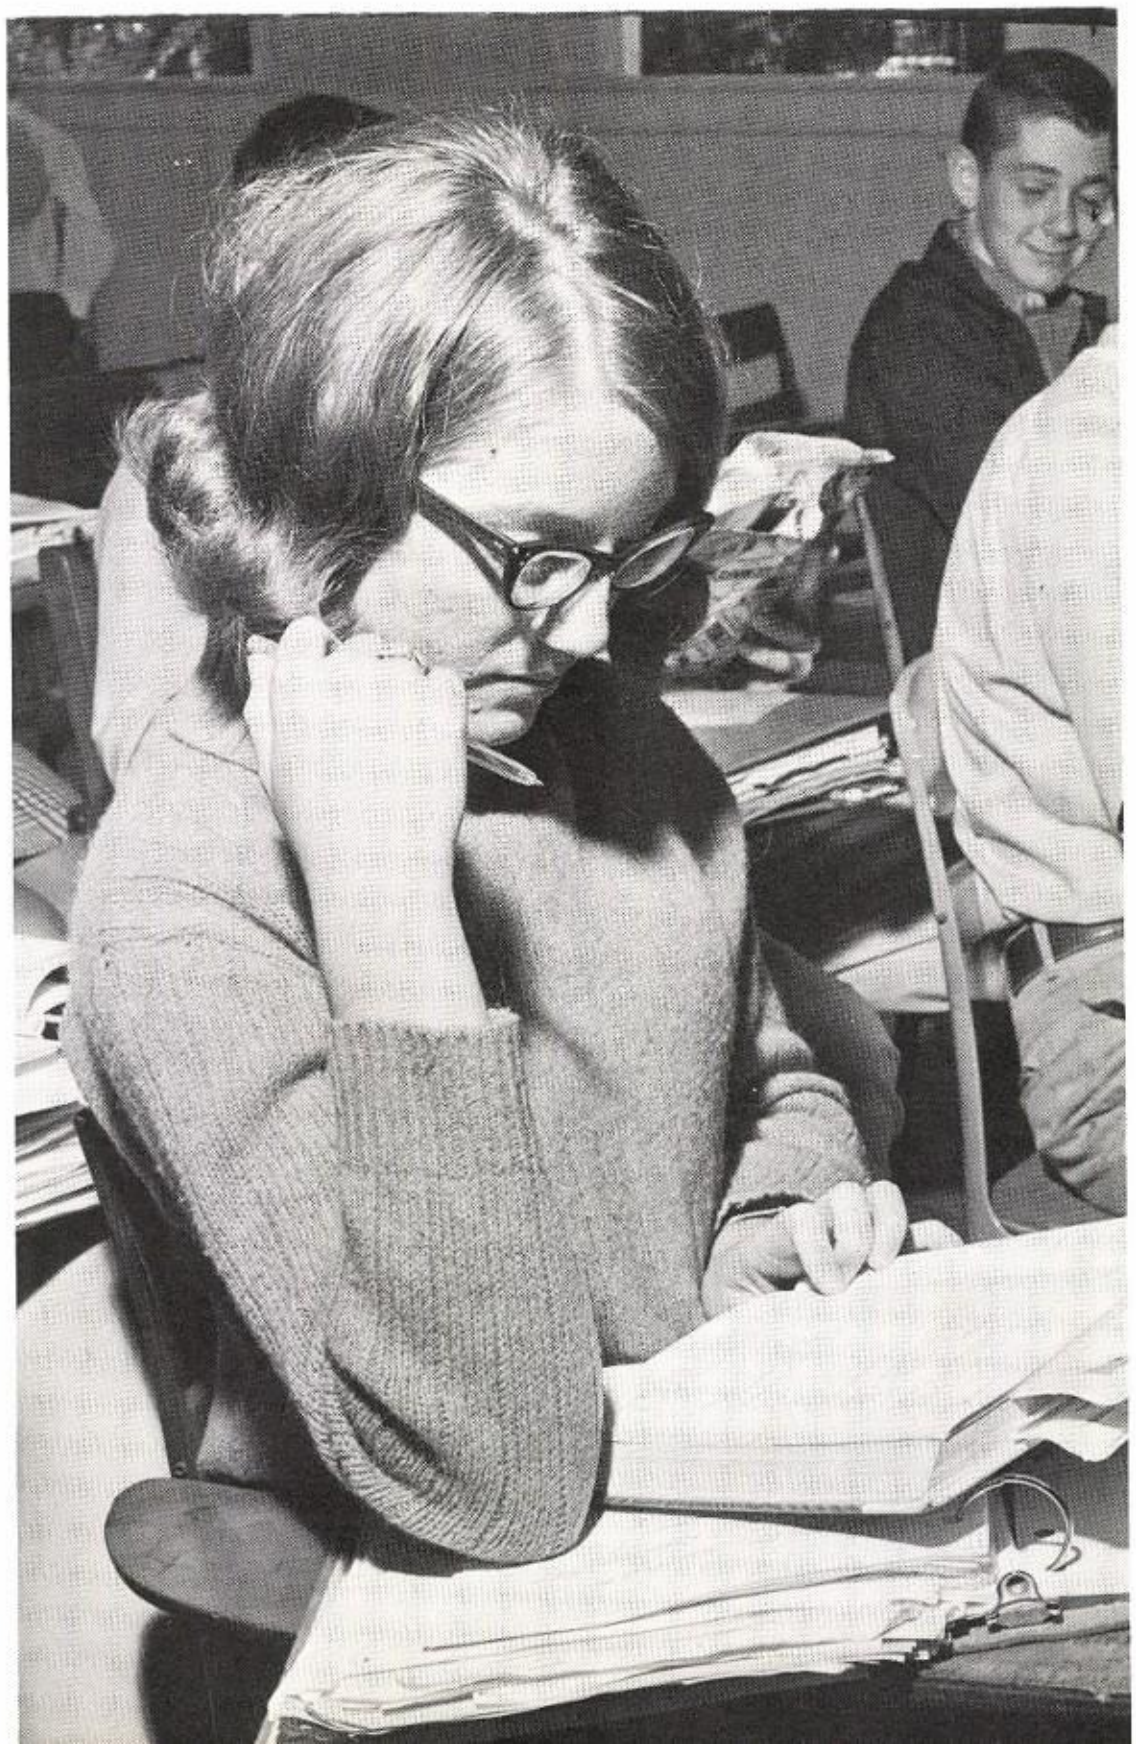
Action starts with hands. Hands! In action they express approval, flip pages, and manipulate slide rules to take the burden of mathematical computation off the mind.

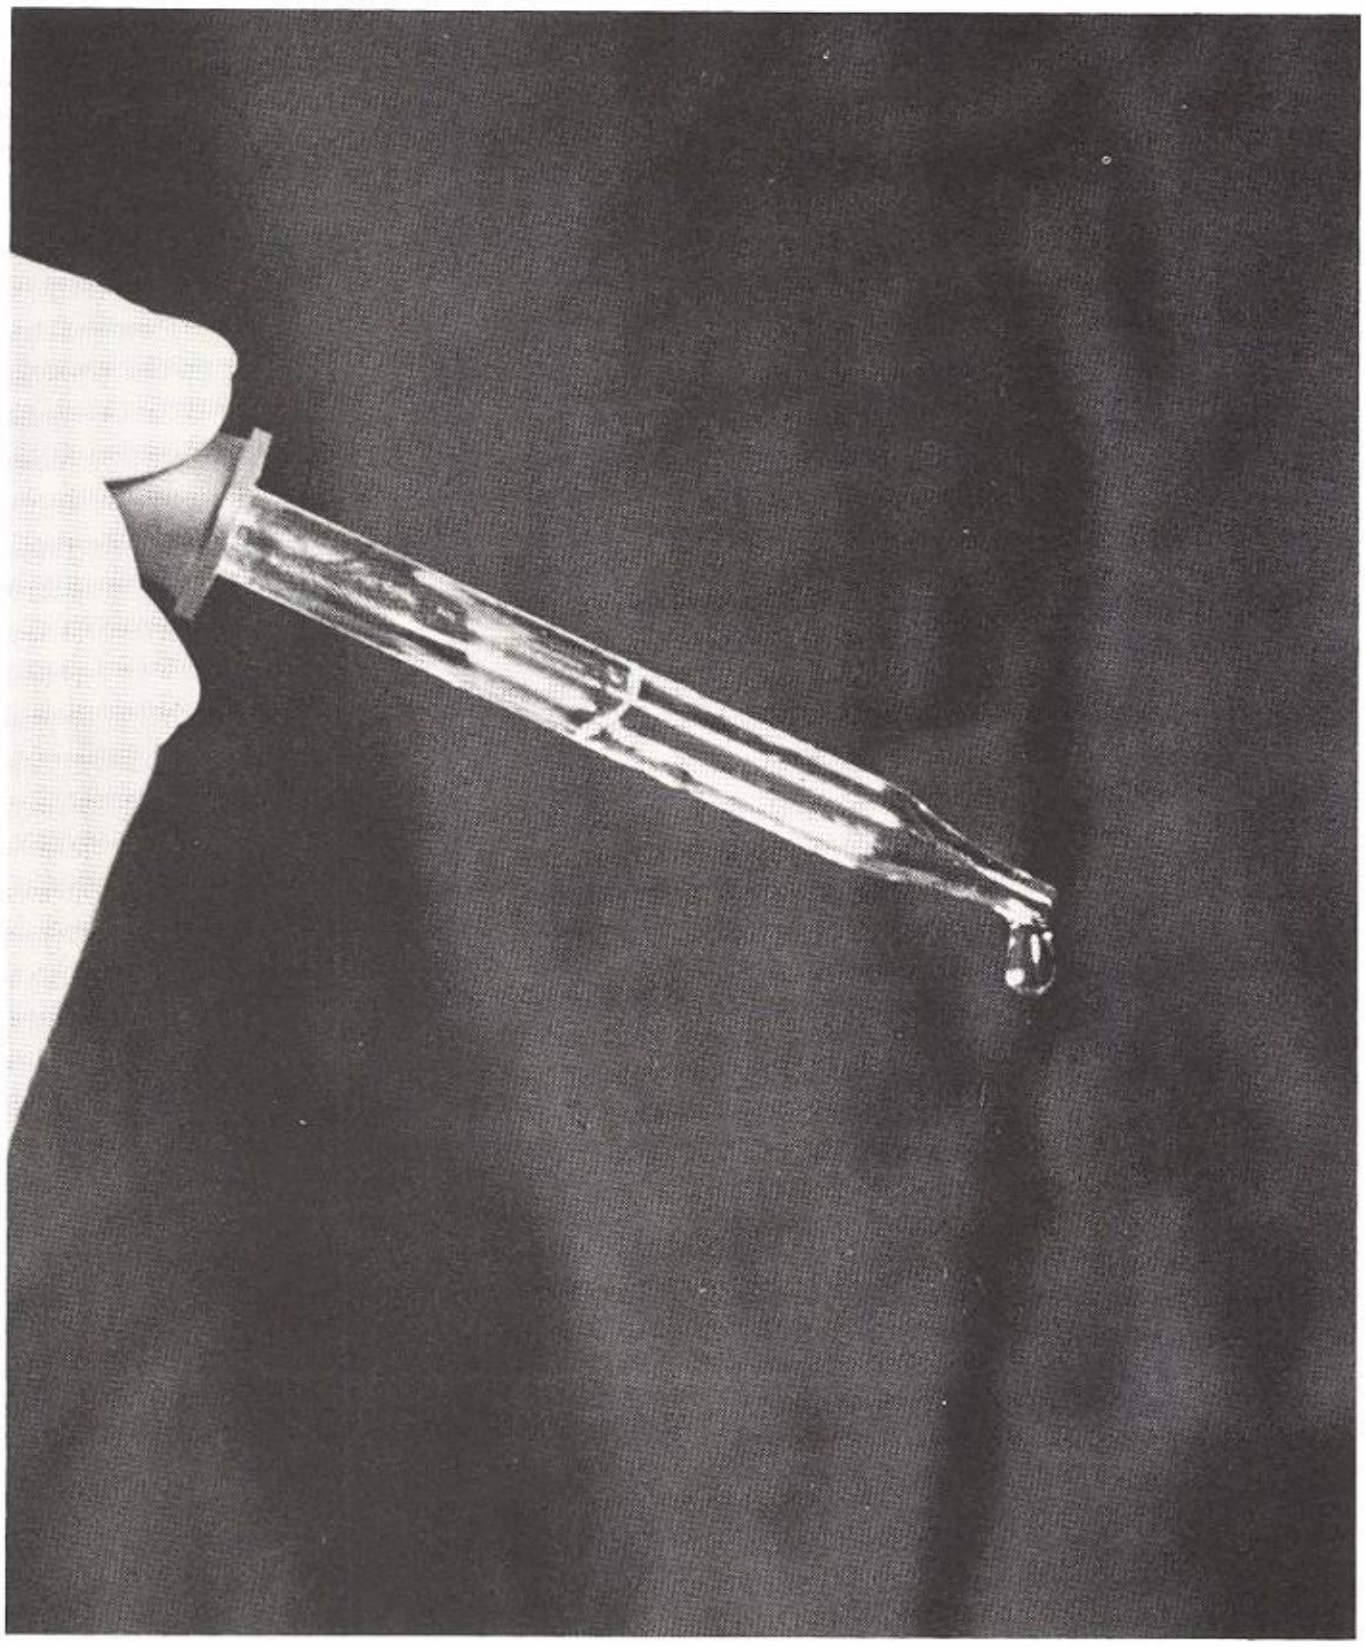




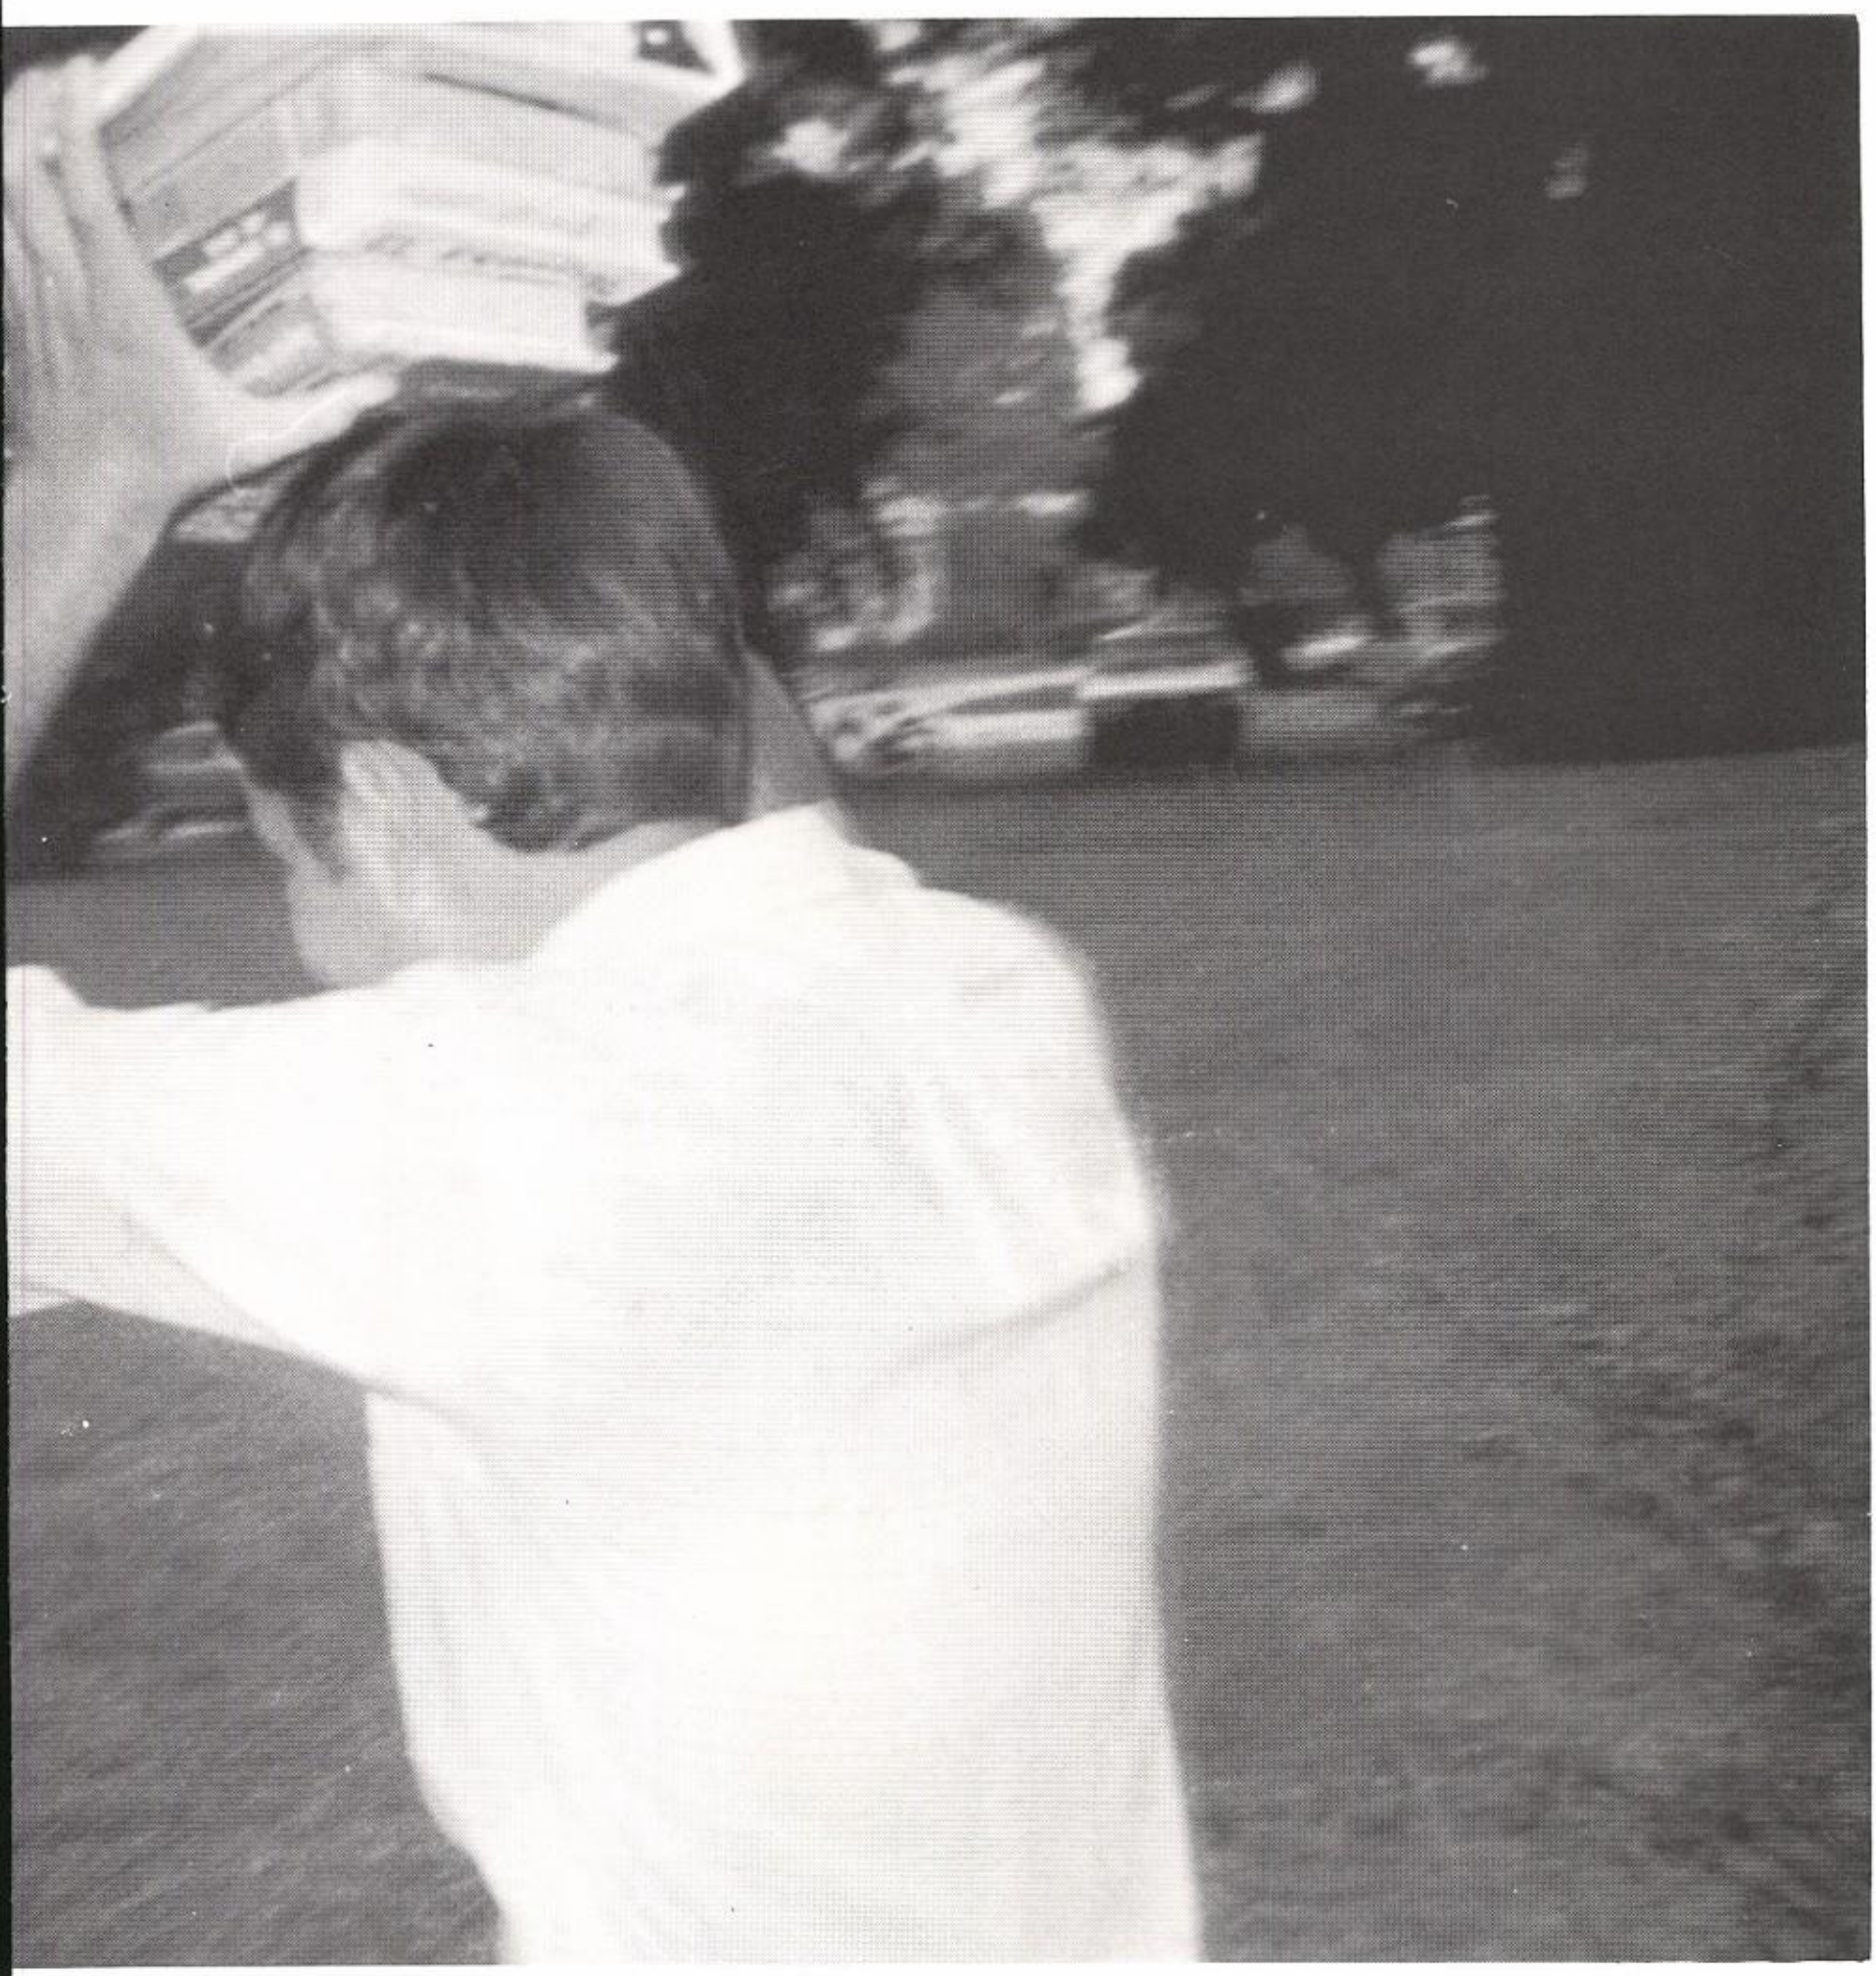


Action involves work, Whether it is by a student or teacher, a great deal of work is done each day at C.C.H.S.





The Action may be as simple as a single drop of water. . . .



. . . or as hectic as a million.

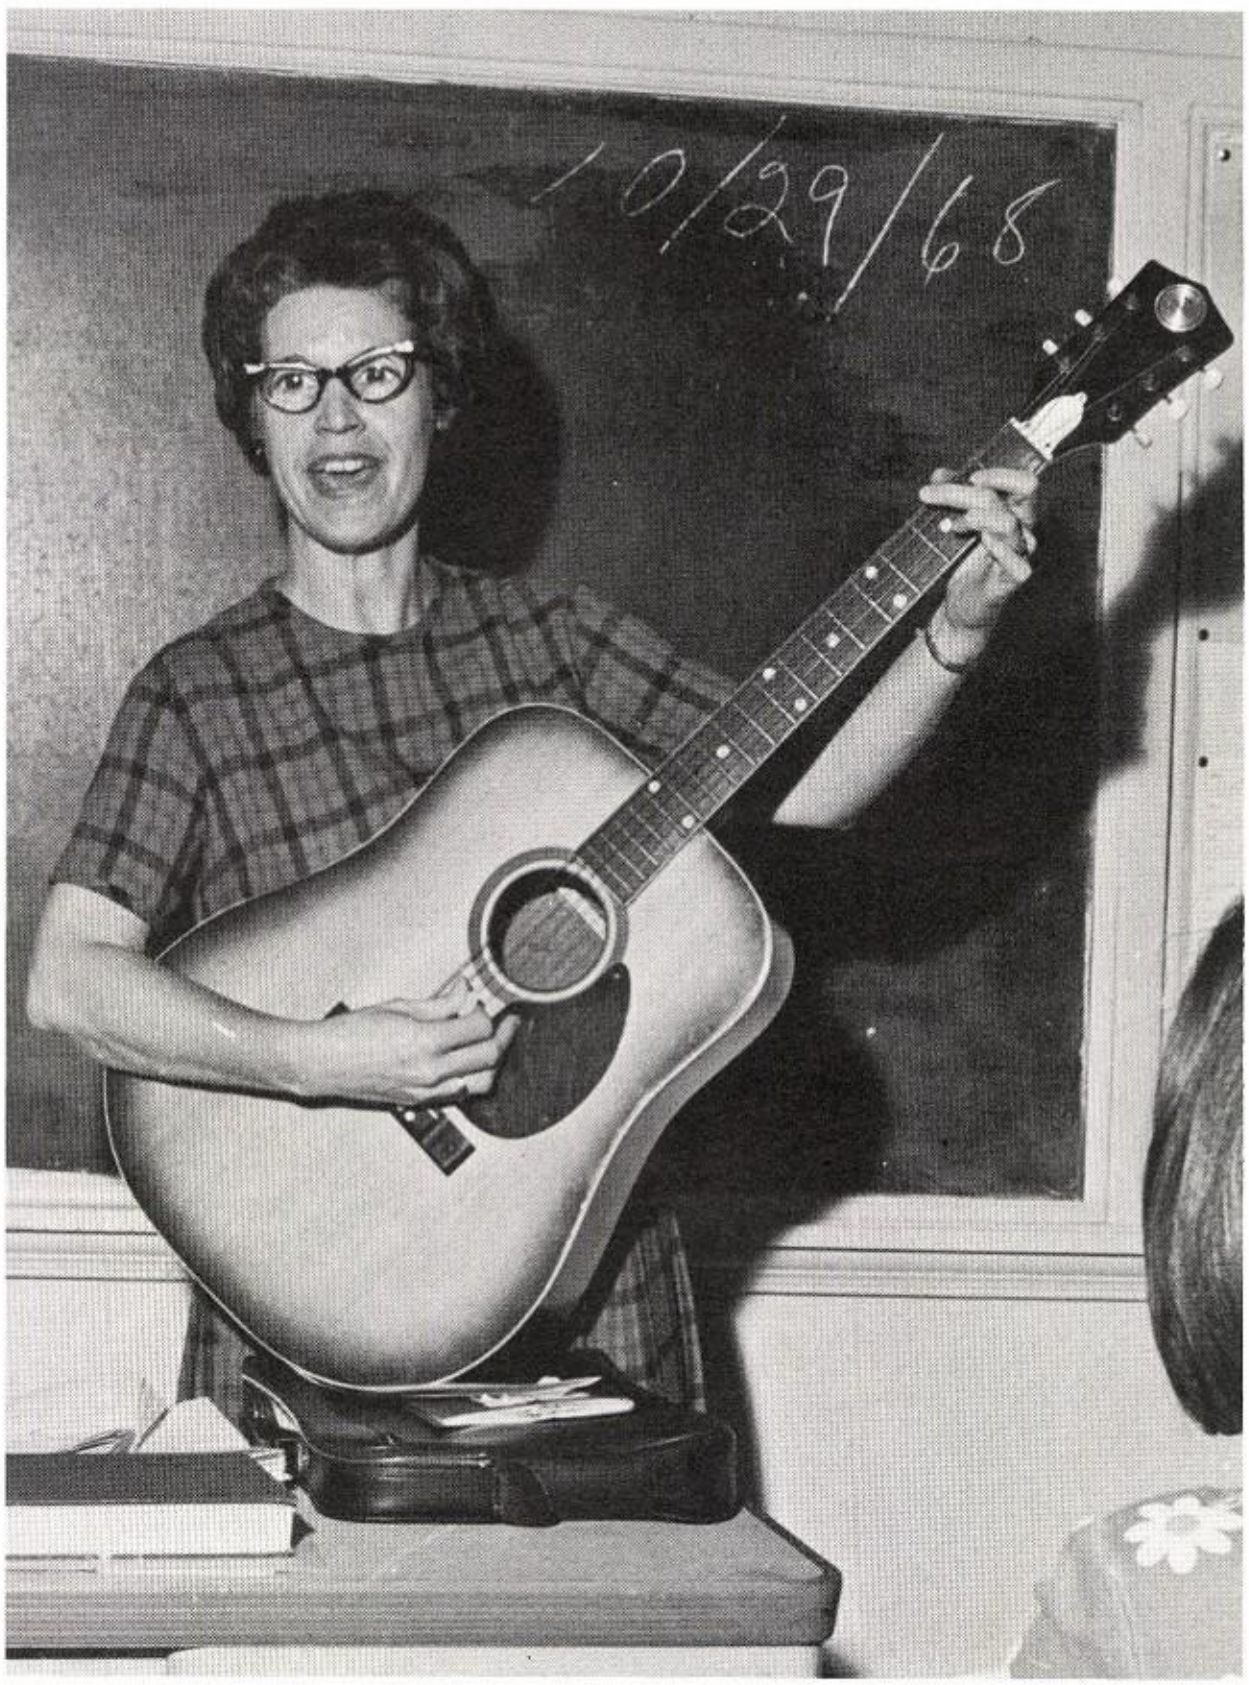
Action Involves People...



...And More People.
